PROSPECTUS

INVITATION TO SPONSOR

ASBTE is making plans for the 30th Annual Conference of the Australasian Society for Biomaterials and Tissue Engineering to be held on 31st March - 2 April 2027 in Sydney, Australia. The success of this event depends to a large extent on our sponsors, who lend their names and financial support to the event. By participating as a sponsor, your organisation will benefit from extended exposure through the Conference program and associated Conference publicity.

The annual event provides an opportunity for biomaterials, tissue engineering & regenerative medicine scientists and engineers to come together and discuss recent findings in research on all aspects of biomaterials and tissue engineering, including surface modification, biointerfaces, biopolymers, implants, drug delivery, nanomedicine, cell therapies and clinical translation.

During the three days, attendees will also have an opportunity to network and develop collaborations with colleagues from around the world.

We very much look forward to a vibrant in-person conference and would value your support to power this a great event.

AUSTRALASIAN SOCIETY FOR BIOMATERIALS & TISSUE ENGINEERING

The Australasian Society for Biomaterials and Tissue Engineering (ASBTE) was formed in 1989. It provides a national platform for professionals who have interests in research, education, development and regulation of biomaterials, tissue engineering and medical devices.

Internationally, the Society is a member of the group of Biomaterials Societies who coordinate international activities, including the World Biomaterials Congress. The Society has continued to thrive during the pandemic, retaining high membership numbers and maintaining member engagement through a series of highly attended virtual/hybrid events.

The annual conference is the ASBTE's flagship event attracting national and international leaders from academia and industry. The ASBTE is excited to bring together ANZ's vibrant research and industry ecosystem together in Sydney in 2027. The program for ASBTE 2027 conference will include sessions on biofabrication, drug delivery, tissue engineering, bioengineered tissue models, biointerfaces, mechanobiology, nanotechnology, stem cells, clinical and commercial translation, and will be attended by the leading Australian and New Zealand research groups, global leaders in the biomaterials field, and industry.

The Conference expects to attract 200 - 250 delegates including international plenary and keynote speakers.

ANNUAL CONFERENCE**

WHY SPONSOR

- Our annual conference will be the premier meeting in Australia 2027.
- The focus on excellence and cutting-edge research and development builds powerful brand association.
- Relationships. Relationships. Relationships. Sponsorship provides you with an opportunity to engage your key clients and decision makers under one roof.
- Educating together. Delegates come wanting to improve their knowledge and skills.
- Aligning your organisation with this conference demonstrates your involvement, commitment and support in their professional development.
- Exposure to invaluable insights, information and the latest research.

SYDNEY, NEW SOUTH WALES

Sydney is a city that commands a global stage. As Australia's largest city and most internationally recognised destination, it brings an energy and prestige that elevates every event held within it. World-class venues and seamless transport connections mean delegates arrive ready to connect, collaborate, and engage.

New South Wales is a powerhouse of Australian industry and innovation, home to leading institutions across health, medical research, technology, financial services, and education. Sydney's position as a gateway to global markets makes it a natural home for conferences that look to the future.

Beyond business, Sydney offers an extraordinary lifestyle experience. From the iconic harbour foreshore and world-famous beaches to a dining scene that celebrates the best of Australian produce and culture, delegates will find themselves immersed in one of the world's most vibrant and dynamic cities — making attendance an experience well worth the journey.
